Trial Lesson

I offer a 40-minute trial lesson for \$40. This amount will be deducted from the first month of lessons if you decide to sign up and pay for the full month.

I may prorate the first month of lessons on a per-lesson basis if you would like to start in the middle of the month.

Also, if your schedule doesn't allow for regular lessons right away, we may discuss paying by the lesson for a short period of time until a regular schedule can be worked out.

Please let me know what length of lesson you're interested in and any other relevant information.

Thank you!
